

## 2018 Unleashing the Komodo platform

Discover our approach to support Komodo Platform as a nextgen technology platform for financial independence

[KNOW MORE](#)

[VOTE FOR US](#)

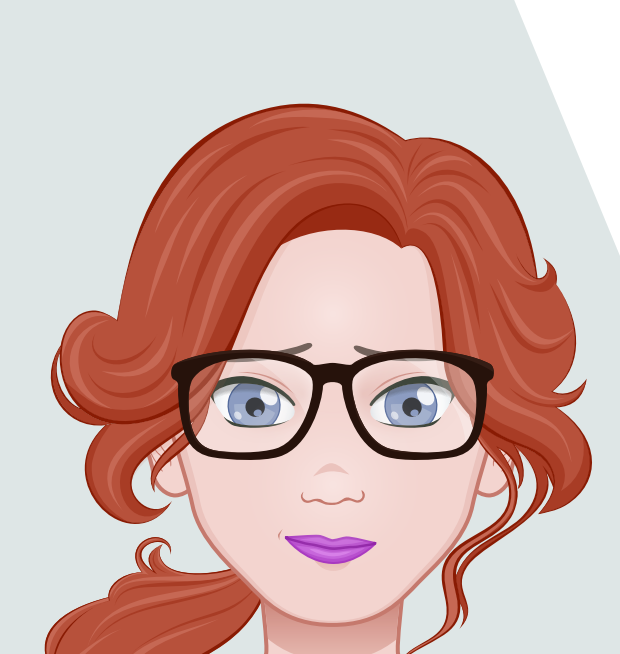

### HANDS ON KOMODO

Bringing a **solid expertise** to develop komodo exciting tech

#### Since 2014

We believe in the Komodo vision and have been involved in Supernet since 2014 @Kimmel

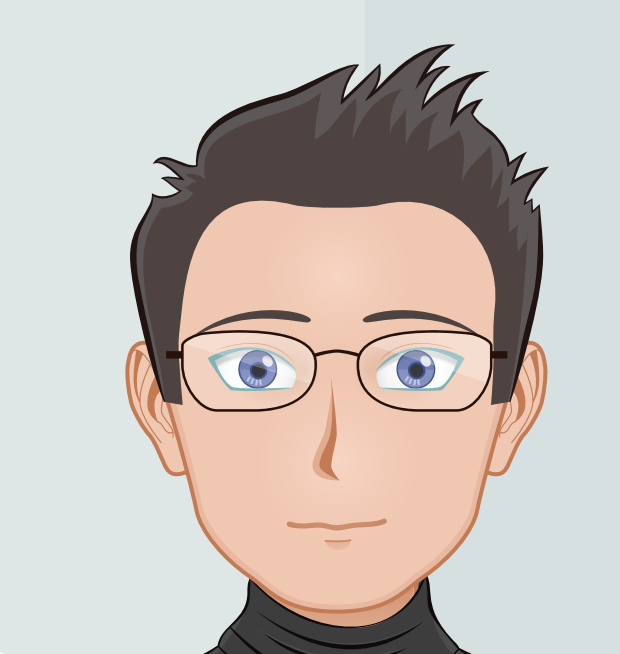

@virginia

Marketing and community manager

#### Before ICOs

2 years ago we started creating Peer2.group, even before ICOs existed

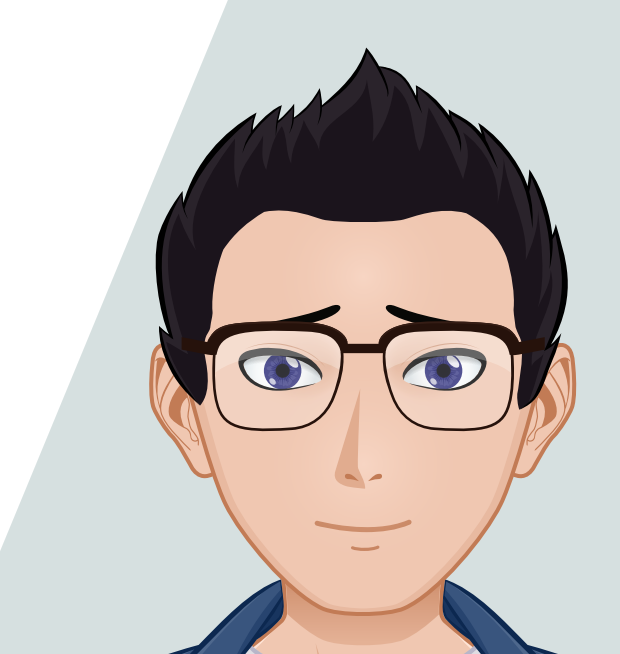

@experimenter

Devops & sysadmin IT team manager with +10 years experience

#### 10 People

We have a **real dream team** of more than 10 people behind us

@kimmel

Peer2 group founder & community member since 2014

JOIN US ON KOMODO SLACK!

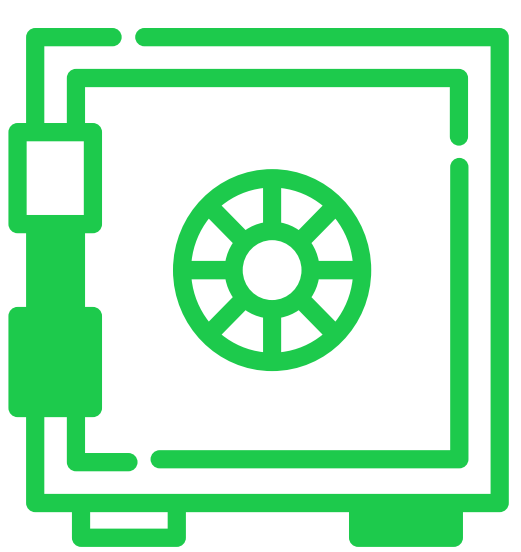

### DEMOCRACY: OUR BACKBONE

Voting empowers a healthy democracy. We empower participation by **sharing our revenue** with our supporters

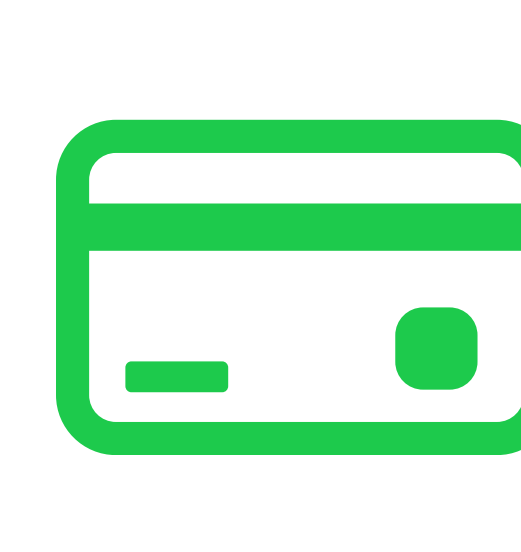

#### 30% Income

We reward our voters with a **30% share** of our nodes income

#### 5% Fund Token

Additional 5% Air-drop of Peer2.fund token. A crypto fund filled from our operations

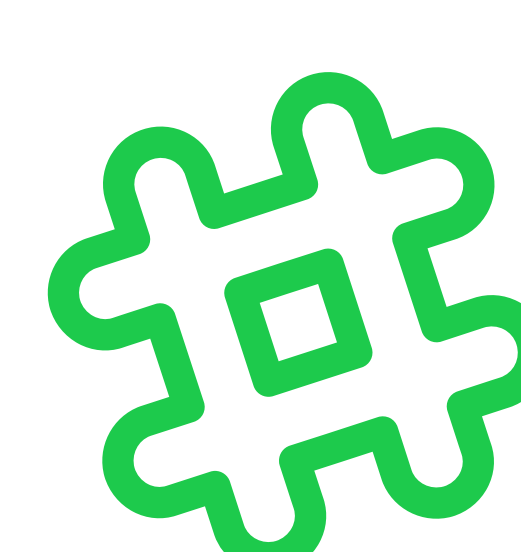

#### Free Debit Card

A free debit card from Peer2.krd (available during 2018)

#### Dashboard

A voter Dashboard to follow our node operations and participation

#### Slack Channel

An exclusive chat channel in Komodo Slack to have direct contact with the team #peer2cloud

### ADDING VALUE TO KOMODO'S ECOSYSTEM

What we are bringing to KMD ecosystem during 2018

- Integrating Komodo in all Peer2.group products
- Creating a **network of SPV nodes** run by Peer2 to support wallet development
- Support for all **assetchains** in our notary nodes
- A **Liquidity Provider** to support decentralization of exchanges
- A **komodo.build** blockchain explorer and open API to serve the nascent KMD ecosystem
- Commitment to support all Komodo tech on our nodes **since day 0**

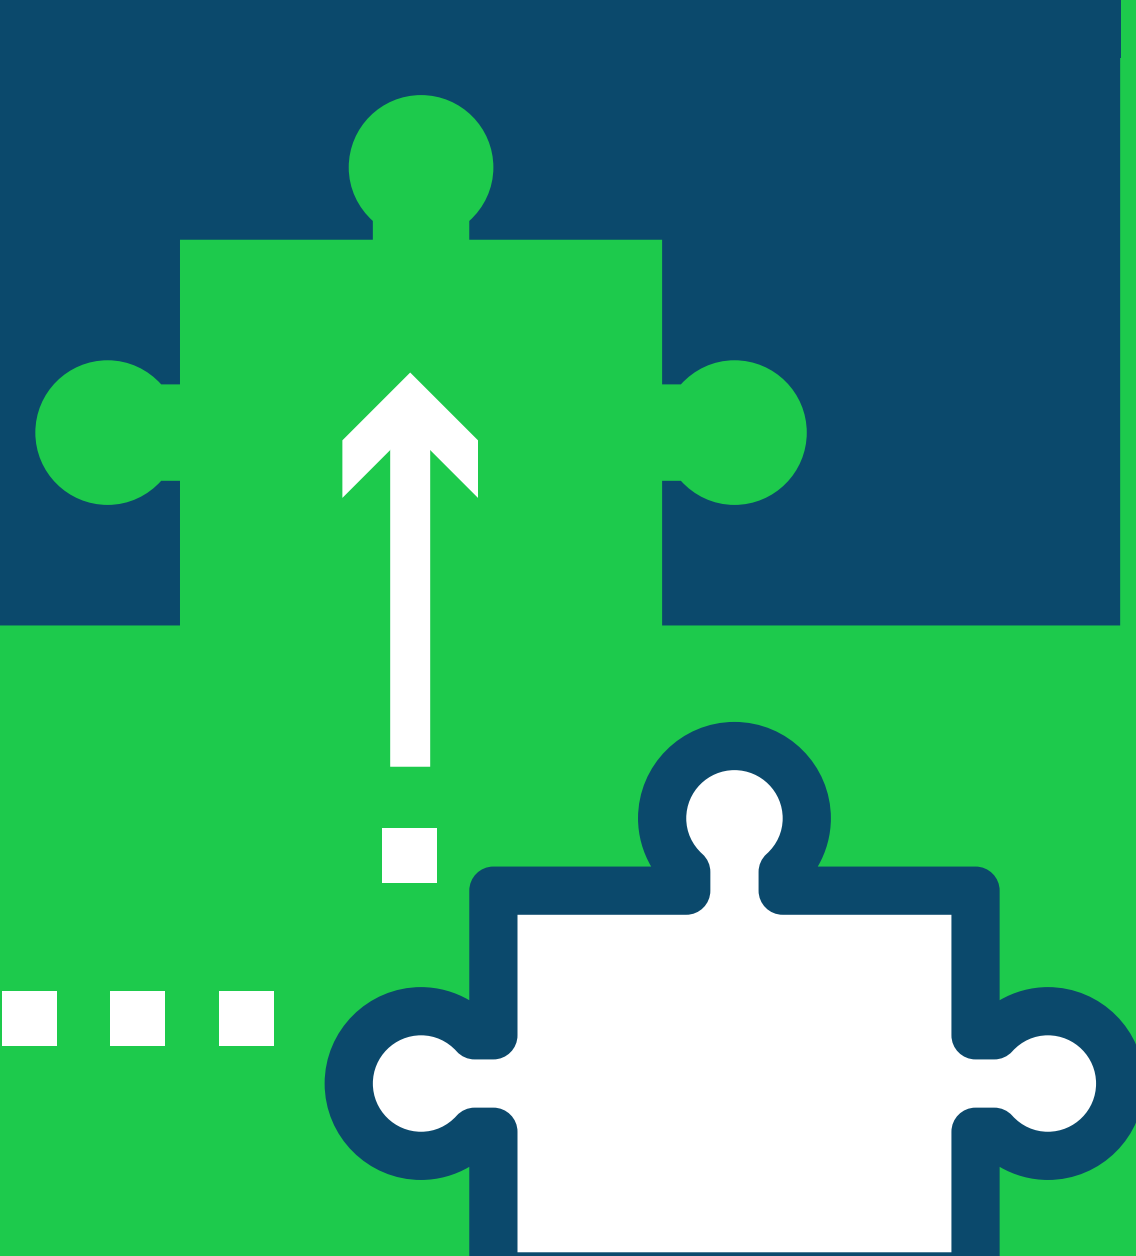

#### Specifications

Proposing Xeon(R) E5-2650 v4 @2.2GHz with 64GB RAM and 1TB SSD for Russia and Asia.

For South Hemisphere node Xeon(R) E7-4850 v4 @ 2.10GHz.

Nodes capacity upgradeable at any time in a matter of hours by our SysTeam

### BUILDING A RELIABLE BACKBONE

- **Reliable nodes** in top providers around the world
- A professional, passionate and **experienced SysTeam**
- A **responsive SysTeam** available 365 days led by @experimenter
- Nodes with **highest specs** to support Komodo growth

### VOTE FOR US: OUR NODES

**Starting 18th March 2018** you will receive an amount of VOTE2018 tokens equal to the amount of Komodo you hold.

You will have **until the end of march** to send VOTE2018 tokens to a **regular notary candidate address** or to a **Z candidate address** if you want to remain anonymous on your votes.

**YES**
